## AUCTION #21

Closing February 25, 1990, Sunday, 6:00 p.m. USA Pacific Time

German collectors will find quite extensive listings of both WWI Notgeld and especially POW Camp tokens. USA Sales Tax Tokens again feature a major Missouri pattern rarity. There is a nice group of British 17th Century tokens as well as rarities from Portugal and Latvia. There are four Brazil transportation tokens of very large size previously unlisted.

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". Grading can be only approximate in a series as varied as tokens. Especially when tokens are crudely made, grading is at best subjective. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind. Comments on my listings and methods of operation are always welcome.

**Surinam** (cont.) At least from 1889 to 1912 the **Plantage Marienburg** was located in the Lower Commewijne River District of **Surinam** comprising 429 Hectares. The old location is still encountered on a few maps, and the property lay somewhat southeast of Paramaribo, the capital, at 5.53 north latitude and 55.08 west longitude. Its main crops during this period were sugar, cocoa, bananas and later coffee. There were about 650 workers employed by the **Nederlandsch-Handelmaatschappij**, its corporate owner.

Surinam is the middlemost of three former colonial enclaves in northeastern South America and a previous Dutch territory. Typical of that part of the continent the country is mostly jungle except for a wide, flat coastal strip, the only land amenable to commercial crop development at that time.

Most of this data came from Lou Wells who researched several years of the **Handboek van Cultuur en Handels-Ondernemingen In Nederlandsch-Indie**. His catalog on Dutch colonial tokens is near completion. Bob Lyall is already well-known for his outstanding book on the tokens of the British Caribbean. (See Lot 286.)

# MAIL BID SALE RULES AND TERMS

(Please note changes.)

1. The sale closes at 6 p.m. USA Pacific Time on the date noted above or until 15 minutes pass with no telephone bid. Lots are sold to the highest bidder. In the event of tie bids the lot goes to the earliest arriving bid. Bids of only a few cents difference will be considered tie bids.
2. Bids must be in U.S. Dollars and those under \$3 are respectfully declined.
3. Winning bids will be reduced to a 10% advance over the next highest bid, or the Reserve (Minimum Bid) if any. In the event there is only one bidder, bids will be reduced to the published estimate, but not lower. The maximum reduction will be 50% of the highest bid in any case. Bids will not be reduced under \$10. In general acceptable bids will be those that are at least 60% of the published estimate.
4. Successful bidders will either be billed first or sent winning lots with the bill if they are established customers. Postage, shipping and insurance costs will be added to the invoices where such are appropriate. There will be a minimum charge of \$1 for postage and processing. A Bidder's Fee of 5% or \$1 will be added whichever is higher. California residents must pay 6.25% Sales Tax. Overseas customers must accept responsibility for postal delivery.
5. **Prices Realized:** please order them when you submit your bids. Do not send payment. I will include the cost with your bill, \$1 per copy.
6. Lots may be returned within 10 days of their receipt only if there is a major error in the description or in the material sent. Please check the shipments for such and keep a copy of the bids you submit. Please pay within 5 days.
7. **Lots Made Up of Multiple Pieces:** In most cases these consist of items which are a) very common, b) badly worn or damaged, c) issued after 1950, d) of little collector interest or e) all of the above. Please bid accordingly. I try to describe them as much as I can afford the space, but because of their nature descriptions have to be limited.
8. Book prices include USA Book Rate or International Surface Mail postage. First Class or Air mail is extra, unless otherwise indicated.

**BIDDING BY TELEPHONE?** My number is (415) 648-8634. The best hours to reach me are 7-9 a.m. USA Pacific Time. However the least expensive and most certain means to bid is by mail even if only on a postcard. At times business may keep me away from the phone for days. I will accept bids over the phone and current bid levels are available from the computer. However if you request such information, you must bid at least 10% over the highest in order to have your new bid qualify. For items quoting under \$10, you must bid at least \$1 more to qualify. For those who like to call in bids at the last minute: I will try to have all bids posted, but often at the end of the day it is not possible when they come in all at once. 98% of all successful bidding is accomplished with high bids by mail.

POST OFFICE BOX 40888  
SAN FRANCISCO, CALIFORNIA 94140  
U.S.A.

The Plantage Marienburg or Marienburg Plantation token listed here is identical to the one listed in the 1975 Jess Peters auction of the Ray Byrne collection. That piece and a 10 Cent denomination were identified as being from Curacao. To me this attribution seemed wrong as the few articles I had read about Curacao suggested that its main economy had always been based on oil and shipping. The island also has a climate that is too dry, one almost totally unsuitable for major planting. In fact none of the Dutch possessions in the Western Hemisphere except Surinam seemed to have the remotest chance of developing large plantations. Smaller ones usually did not issue tokens like the above.

I finally wrote to both Prof. Lou Wells Jr at Harvard and Bob Lyall and obtained the following information which confirmed my earlier suspicion. (See Surinam, page 1.)

FIRST CLASS
